Hi Ben. The lab report is the same and the excel file is an additional file? Can I get a schedule for when we will see sample location information and/or maps? Also, the attached was the schedule for lab data. Have you spoke to Smita and figured out what soil data we received and what is pending? I am confused with the isotopic Thorium early results versus the Radium results. Did we get the full analytical all in one early and we are done with the soil results?
